

# Izabela Szymczyk

I'm open-minded and creative Full Stack Developer from Poland, currently based in Oslo, Norway.

I hold a finance and accountancy degree and have gained experience in a diverse range of industries. My passion for programming led me to pursue a career in software development. My strong analytical skills and a natural ability to solve problems, developed during economics studies, combined with a keen eye for design and user experience, make me well-suited for this field. In my personal time, I enjoy exploring the breathtaking landscapes of Scandinavia and traveling to new destinations.

## TECHNICAL SKILLS
